

A Tale of Two Farmers

Sukhiya: a happy outcome

If you get injured and the eye gets red,
Make sure you stop and use your head,
Get to the nearest health centre quick,
And stop yourself from getting sick.

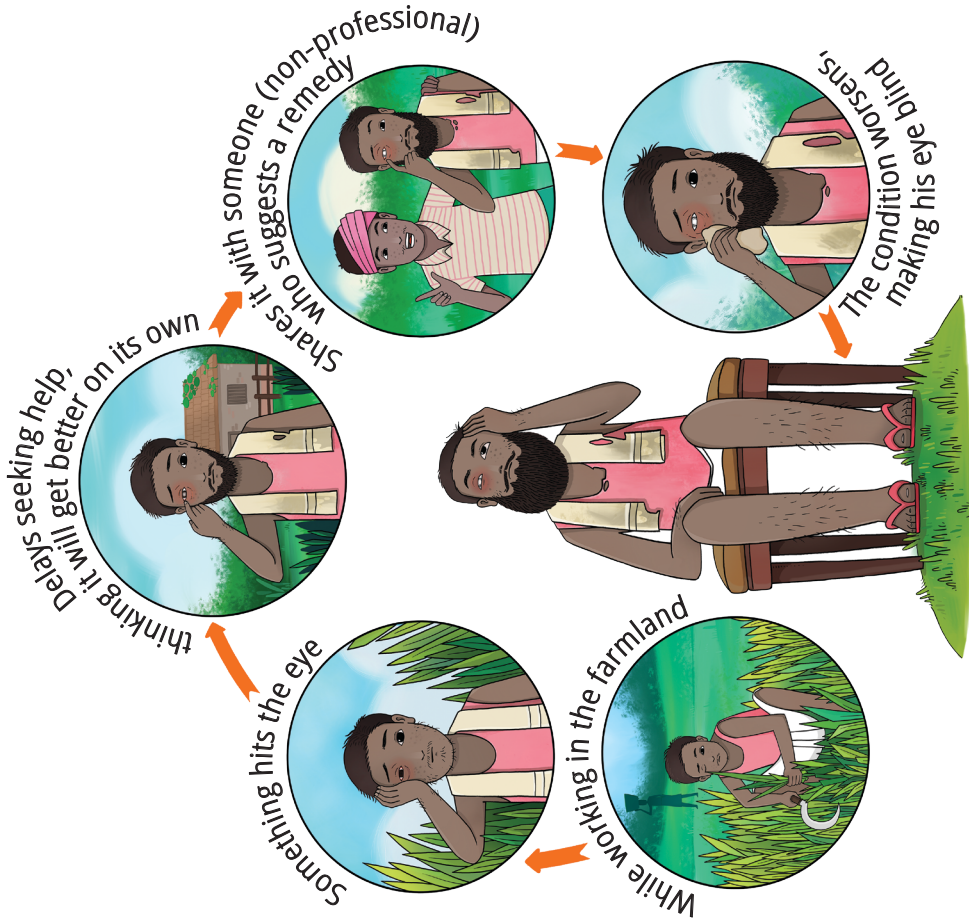

If we take care of our eyes when needed,
we can return to a normal lifestyle soon.

Dukhiya: a sad outcome

If you get injured and the eye gets red,
Ignoring it makes it worse instead,
Staying at home, hoping it will go,
Leads to problems, don't you know?

Neglecting our eye problems
could lead to difficulties in life.
